1pm, Friday 18th August 2023

Lot 1

Clermont Saleyards, QLD
& via AuctionsPlus

40
Charolais
Bulls On Offer

Selling Agents: Elders / Kennedy Livestock / Nutrien

WWW.GLENLEABEEF.COM.AU

WELCOME TO OUR ANNUAL CLERMONT BULL SALE

This year we have brought our Clermont sale forward to August 18th and we are sure you will find bulls that will suit your country, cows and target markets!

Our cattle are spread across several properties, with most cows on the coast, weaner bulls grown out in the hills on improved pasture, a process that identifies any structural issues or lack of doability. From there our bulls are prepared at Condamine Qld on a silage-based ration. They are presented with a view to their long-term breeding soundness.

The Glenlea Beef Stud Charolais herd is now in our 49th year. Our focus is Queensland with our bull sales, now and into the future. Our performance recording and genetic testing is a key part of our growth, and we are committed to providing full performance data. In 2022 we sold over 250 bulls with 85% to North and Central Qld, both privately and at Auction. In 2023 that number will be higher. Our stud cattle are our primary business and selling bulls that add value to our client's bottom line and the entire supply chain is what we strive to produce in everything we do with our cattle.

We are excited that several Clermont producers have cattle entered in the Cattleman's Challenge for 2024 sired by Glenlea Bulls and are looking forward to seeing how progeny of Glenlea Bulls perform.

Our after sales service we take very seriously and back our stock with 100% guarantee. If a bull doesn't perform to your expectations, call us and we find a better one for you at no cost, including delivery. Our bulls have thrived at their new homes in the Clermont area, along with Emerald, Alpha, and further

north and west to Charters Towers, Prairie and Julia Creek. Feedback has been very positive with repeat buying the benchmark. We attribute this easy adaptability to having generationally bred cattle with natural doing ability as our number 1 selection criteria, with performance recording and all the other selection and breeding tools we use being applied after that.

The bulls we have on offer in this sale include many of our lead sire prospects for the year. A feature are the Red Factor bulls by Glenlea Honorable P80 (P) R/F. Joint prefix bulls are from our joint venture breeding program and is the cornerstone of our growth now and in the future. Additionally, the Calmview stud are offering sires as they do at all our bull sales.

Bulls have been vaccinated for 3 germ blood, botulism, 3 day and 7 in 1. All bulls have been Semen tested for motility and morphology.

Lunch and refreshments will be complimentary to all attendees, provided by local service club in Clermont and we hope to meet as many people as possible.

If you haven't attended our sale before we hope you can come in and inspect the bulls in 2023.

All bulls will be at the sale yards by Tuesday afternoon 15th August and are able to be inspected from then.

Regards.

Roderick Binny

GLENLEA BEEF

CLERMONT BULL SALE

1pm on Friday the 18th of August 2023

Sale to be held at Clermont Saleyards, QLD and via AuctionsPlus

40 Charolais Bulls on offer

35 Polled Bulls | 12 Red Factor Bulls

INSPECTIONS OF BULLS

BULL HEALTH AND FERTILITY

All bulls have been vaccinated for 3 germ blood, 3 day, botulism and 7 in 1. Bulls have all been semen tested for both motility and morphology.

SUPPLEMENTARY SHEET

Available from Monday 14th August with updated information such as weights and raw scan data.

GUARANTEE

All bulls are guaranteed to be able to serve cows naturally at the time of sale and are guaranteed for 6 months from sale day. If a bull should prove infertile or unable to serve cows naturally, provided the inability not caused by injury or disease contracted after sale, the bull will be replaced with a bull of similar quality or credit given for another of our sales by discussion with purchaser. Less salvage value of the bull.

INSURANCE

We recommend you insure your new bulls. Elders can arrange this at fall of hammer sale day.

AGENT REBATE

A rebate of 2% to all licensed agents is available, introducing buyers 24 hours prior to sale and settling accounts within 7 days.

REFRESHMENTS

A complimentary lunch and drinks will be provided on sale day by a local service club on behalf of Glenlea Beef, so even if you don't require a bull this year come along, inspect the bulls and enjoy lunch on us!

PHONE BIDDING

Phone bidding is available by contacting the agents or vendor prior to sale to arrange for a dedicated agent to call you and assist you with your bidding.

TRANSPORT

Delivery will be coordinated by Jake Kennedy, Kennedy Livestock.

BULL PROGENY AND TARGET MARKETS

I personally (Rod Binny) make a number of suggestions on individual lots regarding target markets for progeny. Many bulls will fit all markets for progeny as plans change with seasonal and market conditions. When making these suggestions I take into account physical body type or Phenotype, maturity pattern and doing ability, along with pedigree and EBVs. We have bred many of these bloodlines for generations and so know how they breed. These suggestions are just another assistance for you to assess the bulls in a sale environment, in a very short space of time, while we have watched them grow and develop over their life to date from birth to sale day. Having said that, many factors effect breeding outcomes - seasonal conditions from birth to weaning, your cow herd breed make up, management and type of country your cattle run on.

ACCURACY OF CATALOGUE

Every effort is made to be as accurate as possible. However mistakes can happen in the construction of catalogue and printing, we will resolve any issues at best as possible but make no warranty.

AuctionsPlus

How to Register and Bid on AuctionsPlus

1

Go to www.auctionsplus.com.au to register at least 48 hours before the sale.

2

Select "**Sign Up**" in the top right hand corner.

3

Fill out your name, mobile number, email address and create a password.

4

Go to your emails and confirm the account.

5

Return to AuctionsPlus and log in.

6

Select "**Dashboard**" and then select "**Request Approval to Buy**".

7

Fill in buyer details and once completed go back to Dashboard.

8

Complete buyer induction module (approx. 30 minutes).

9

AuctionsPlus will email you to let you know that your account has been approved.

10

Log in on sale day and connect to auction.

11

Bid using the two-step process – unlock the bid button and bid at that price.

12

If you are successful, the selling agent will contact you post sale to organise delivery and payment.

For more information please contact us on:

Phone: (02) 9262 4222

Glenlea Beef: Background, Bloodlines, Breeding Strategy & Customer Service

Australian Charolais breeders have embraced performance recording as other countries have reduced their efforts, I have seen this first hand in north America. Our data now is more accurate and detailed, making looking overseas less likely to add genetics that take your herd forward in genetic development than using **Australian evolved genetics that are the best in the world for our environments and markets** with large amounts of individual data to help us as seedstock producers, identify positive influences.

Glenlea Beef is now a large seedstock enterprise, totalling 1000 Charolais females. This includes the purchase of the Fairfield herd in 2021. We have been using **Australian bred sires** to continue the evolution of the herd over the last 10 or so years as Australian bred sires are the best adapted to our country and markets. The genetic base of the Glenlea herd is now as diverse as the breed in Australia, with a blend of many bloodlines and that meet our criteria and with the heart being a number of Glenlea cow families that have origins going back over 40 years, with descendants not only directly in our herd but many studs throughout the country.

Our genetic base of the Glenlea herd is now as diverse as the breed in Australia, with a blend of many bloodlines and different phenotypes to produce an Australian type Charolais. We have a degree of type variation, which is necessary with our range of markets and geographic footprint, from higher growth and yield types for northern markets over bos indicus cows to more moderate, early maturing types

that suit more southern markets, but all assessed through the same process for all economic traits. This will be evident through the catalogue and comments, and EBV's on individual lots will highlight this.

Our breeding strategy is to produce powerful performance cattle in a medium to moderate frame score with a complete carcass. By that we mean above average yield, EMA, fat cover and IMF%. Measuring birthweights to be able to assist our bull clients to make the best selections for their operation and maintaining calving ease through BW and early gestation length.

Maternal strength focus on fertility, milking ability with great udders and moderate sized teats for longevity. While we are primary a terminal breed, in northern markets especially, Charolais x heifers are retained in there 1000's, so as seedstock producers we must always have our customers and in turn their customers in the front of mind in our breeding decisions, as those decisions ripple down the supply chain and leave big impacts, both positive and negative.

Polled genetics have progress in our breed to match horned bloodlines for every economic trait. Our herd still has a number of horned females and these are joined to homozygous polled sires. 98% of our calves born in the last 5 years are polled, many homozygous, and all testing will be available in catalogue or supplementary sheet.

Glenlea Beef: Background, Bloodlines, Breeding Strategy & Customer Service

BREEDPLAN is a genetic evaluation tool now over 30 years old and proven across many breeds and countries. We no longer print a detailed general explanation in our catalogues for bull sales or female sales as that information is available at the touch of your phone screen or click of your mouse! We are happy to explain any of the finer points of EBV's as they relate to the Charolais breed and specifically to our cattle, just call and ask! In the comments of each lot, you will see our summary of the EBV's printed for that lot.

Customer Service is at the heart of what we do, we spend much of our time travelling to clients both commercial and stud to help with a full range of services. We provide many services to all our clients from the most basic to full stud breeding and marketing support. Your success is our success. We are here to assist and work with you and your agents to help you achieve the highest possible price for your Glenlea sired stock.

For more information about Glenlea Beef, please contact Stud Principal Roderick Binny on 0409 911 791.

*Top Priced bull at our 2021 Clermont Sale.
Dark Red Charolais Sire Glenlea Kowboy Q405
(P) R/F with Roderick Binny and Jake Kennedy.*

*Top priced bull at our Clermont Sale in 2020,
Glenlea Pheonix (PP) R/F. Sold for \$25,000.
His first sons in this sale.*

*Kowboy Q405 just prior to him joining
his first group of cows in 2021.*

*Alldenaw/ Glenlea Leopold R55C (PP)
Top price bull at our 2022 Sale at \$22,000.*

REFERENCE SIRE: GLENLEA HONORABLE P80 (P) (R/F) (GLE P80E)

Photo at 2.5 years running with cows.

A sire really producing for us, a dark red charolais sire we describe as a “Glenlea Red” big carcass, fine coated, very docile. 100% of calves born from white cows are an apricot colour. Lots 3,4,5,6 and 15 are his first sons to be offered for sale in Australia.

Acc	53%	46%	47%	45%	43%	39%	46%	37%	41%	37%

COMMENTS: A unique bull to lead off with. Deep body and thick carcass is clear in his photo. Strong sire's head, loose fine coated hide with good bone. Early to mid-maturity, heifer's first calf, with moderate BW and a combination of muscle and easy finishing - It's rare to find all these traits combined into one bull. Both parents are PP Polled, he has small scurs. Progeny would fit any market, he would breed herd bulls in a bull breeding program. Sire is a Low BW genuine carcass bull, with good fat cover and strong maternal traits, his dam is a powerful female with growth, carcass and finish and perfect udder.

EBV's Top 5% Rump Fat and EMA, top 10% IMF, Top 15% 600-day growth.

Acc	52%	47%	47%	48%	45%	43%	47%	35%	38%	33%

COMMENTS: A strong type with carcass, bone, medium frame, strong sire's head, clean coat, polled and red.

S34's sire is our growth trait leading sire Glenlea Just Red and his dam was one of the best females we have ever purchased, originating from one of our own original cow families, the Nunciata's. A big volumed female, with loads of carcass and breed character, fine coated, perfect udder and 4 calves with a few weeks of each since her first calf.

EBV's Top 15% 600-day weight. Weaners to bullocks, very versatile sire.

Acc	44%	41%	41%	40%	39%	38%	38%	30%	32%	29%

COMMENTS: The first of five P80 sons, the first to sell in Australia by this impact sire. Length, thickness which the side on photo can't exhibit properly, strong double polled head, fine tropical type hair type, loose skin, good bone and lovely docile nature. His sire is noted as a reference sire, his dam is from a leading cow family at Moongool and was a champion in her day in the show ring, with volume, carcass and a ideal beef udder.

EBV's top 25% of breed across the growth traits, Top 15% EMA and all positive Carcass traits. Progeny would fit all markets. Updated data should see this increase as he has outperformed in his management group.

Acc	42%	39%	40%	39%	36%	33%	35%	28%	31%	27%

COMMENTS: Biggest framed of the P80 sons, will produce some very fast-growing bullocks. Extra-long bodied, square rumped and great bone, again very fine hair type, almost a tropical skin.

Dam was interbreed champion at Melbourne royal in 2016 and sold as an unjoined heifer for \$16,000 at auction. At BEEF 2018 in Rocky she was Reserve Champion cow and calf.

We expect his updated EBV's to reflect his extra growth, being one of the heaviest bulls in his management group.

Acc	49%	56%	52%	53%	48%	35%	45%	31%	34%	30%

COMMENTS: The first Pheonix son (Reference Sire) to be offered who was top priced bull at this sale in 2020. A good sire's head, double polled, slick hair type, loose hided and very easy finishing bull that will be ideal to sire bullocks to finish on grass.

His Dam has been very good doing moderate framed cow that has raised a great calf from her first, and she is highly valued in the stud herd.

EBV's have all growth traits in the top 15% of the breed, with all positive carcass traits.

AYR JUBERT'S DUCHESS (AYR W179E)

MID PARENT EXPECTED AVERAGE PROGENY VALUE - June 2023

	BW	200	400	600	MCW	Milk	SS	EMA	Rump	IMF
EBV	+2.3	+18	+37	+51	+56	+5	+1.3	+2.4	+0.1	+0.4

COMMENTS: The first of 5 yearling bulls in the draft. Selected from the top of our 2022 autumn born bulls, these young sires are ideal for rejoining 1st calvers and heifers.

Kody T144 is an impressive sire with growth, carcass, good bone, slicked coated and double polled. His sire is top 1% of breed for growth and his dam is a great producing cow, still in the herd at 13 years old.

His impressive EBV's have him in the top 10% for 600 day and mature weight, top 15% for EMA. Ideal for rejoining first calvers to produce big bullocks.

EBV	-1.0	+18	+36	+47	+41	+14	+1.9	+2.3	+1.7	+0.2

COMMENTS: Growth, extra finish, good bone with low BW, very docile, fine coated and double polled.

The Muscles sons have always attracted attention at our sales and this fellow will be no exception. Dam is an outstanding producer, growthy and easy finishing with perfect udder and still in the herd.

Ideal for heavy feeders or grass finished bullocks, his daughter's will be retained high value heifers with this bull having EBV's Top 5% for milk and early gestation, top 15% 600-day growth, EMA and Fat cover. Suitable to join heifers.

EBV	+1.9	+18	+37	+54	+62	+7	+1.7	+2.9	+0.8	+0.5

COMMENTS: A very classy, powerful and docile double polled sire. Extra thick bodied, length, mid maturity to suit all markets. His sire is a top of the breed growth and carcass sire, his Dam a great breeding female that always looks good in the paddock and is currently raising another great calf.

Top 5% of breed for 600-day growth and mature weight, carcass weight and EMA. Ideal to rejoin 1st calvers.

EBV	+0.8	+17	+38	+49	+47	+7	+1.5	+2.0	+1.9	+0.5

COMMENTS: Early to mid-maturity, good carcass and easy finishing, extra fine tropical hair type, moderate BW and double polled. A Lord son that, like his sire bends the rules, with low to moderate BW combined with excellent growth and added fat cover. Dam is another older cow with strong production record that has the same skin and hair type as this bull and perfect udder. EBV's top 10% 400 days and Rump fat, Top 15% 600 days and well above average EMA. Suitable for heifers.
