Welcome

Welcome..... To the 2023 Whitaker Beef Bull Sale,

Most “Welcome” paragraphs rarely change from year to year, however for the Whitaker Beef Bull Sale we have a major change to our offering. This year sees the introduction of our first Black Angus bulls to our sale format.

We are excited to bring this breed onboard to compliment our traditional offering of Charbray, Three-quarter Charbray, Charolais and Brahman (both Red and Grey) bulls.

The introduction of Black Angus enhances what our sale represents; a Beef Bull sale. We identified an opportunity to produce an environmentally adapted Black Angus to expand our Central Queensland marketplace; A bull reared in a sub-tropical environment having been exposed to both our climatic and parasitic factors. When securing our seed-stock we sourced big framed Black Angus cows with volume, straight top-lines and impeccable temperament.

For our supportive purchasers of our traditional offering of Charbray, Charolais and Brahman we are pleased to present a line up of bulls representing the quality you’ve come to expect of the Whitaker Beef bulls (including increased polled numbers).

As with our previous sales, we’re going the extra mile by providing as many scans and measurements as possible so you have all the information required to assist in selecting the bull most suited to your operation.

Whilst we enjoy presenting these bulls fully at sale, it should be noted they have not been pampered their entire life. They are raised in forest paddock conditions and, following weaning, fend for themselves on river country until their sale preparation begins. Their prep is with a high roughage total mixed ration and not green crop. This style of preparation has helped us receive relevant feedback stating our bulls had “held up” under trying seasonal conditions. Also the bulls will be presented tick free.

We’ve personally and professionally had a long and valued association with KellCo Rural Agencies co-principal Mr. Andrew Cavanagh. His team is second to none and their dedication to our sale assists to ensure its success. By placing the sale local to our client base we assist our clients access quality bulls at affordable prices, without the associated costs of major travel and accommodation to attend other sales. We’ll gladly be assisting successful buyers to get their new bulls home.

As previous attendees of our sale have come to appreciate, we’re again providing smoko and lunch for our supporting clientele in a warm and friendly “sale day out” atmosphere.

Successful purchasers will have an added bonus, gaining entry in the draw for a bottle of our very own signature premium blended “Burnett Park” Bundaberg rum. Every lot sold will gain a rum entry, so multiple bull buyers will have multiple chances to win.

We appreciate and value your support and wish you well with your purchases.

Sale Information

Whitaker Brahman Charbray Charolais Angus

Clint and Robyn Whitaker conduct Whitaker Brahmans, Charbray, Charolais and now Black Angus.

Whitaker's home base is located at "Burnett Park", on the outskirts of Mundubbera, the family also runs other holdings located at Eidsvold and its main breeding enterprise at "Cosland", Abercorn.

The Brahman breed has traditionally underpinned the entire operation. In short Clint and Robyn were fortunate to access Grey Brahman genetics from a foundation stud dispersal and later to secure Red Brahman genetics that included the birth of "Whitaker Maggie" on the day of delivery. "Maggie" became the matriarch of the Whitaker Red Brahman herd winning the Australian Brahman Breeders Association Cow of the Year on three consecutive occasions and was indoctrinated into the Brahman Breed's Register of Renown. Since then they have further expanded the Red herd with the purchase of a highly fertile and productive, strongly polled stud herd from an exiting studmaster.

The Charolais influence has always played a pivotal role in the breeding program since the early 1990's. Charolais genetics were utilised extensively over the Grey Brahman cow herd. Natural selection ensured the resultant progeny didn't retain any genetically derived dystocia traits and to this day our Charbrays are bred this way so they can compliment any herd they are introduced to without fear of calving problems.

Recently the stud has looked to secure the benefits of the Black Angus breed and with this in mind the Whitaker's are now breeding sub-tropically adapted Black Angus. Bred in our Central Queensland climate these bulls are both environmentally and parasitically challenged to thrive in a non-traditional area for their breed.

Whilst demand for polled cattle is rapidly growing, and the Whitaker's see the benefits of such and provide to meet market demands, they also are very aware growth and carcass weight is heavily associated to horned genetics. As a result, they try to keep a balanced approach to the polled equation and produce for all market requirements.

The Whitaker's breed cattle with high natural resistance to buffalo fly. The Charbrays are made up of the traditional Classic Charbray content cattle of 50% Charolais, 50% Grey Brahman. The Charolais herd is highly productive and incorporates a strong polled influence. Whilst the Grey Brahman herd is predominantly horned, the Red Brahman herd has a strong polled influence and will continue to be developed that way. And as for the Black Angus; they're here to stay.

To the future the Whitaker's aim to continue to produce commercially orientated cattle, able to adapt to any environment including country type and seasonal variances.

And of course we always welcome feedback on how we can ensure our customer expectations are met.

Lucky Bull Draw

Successful purchasers of any bulls in this year's sale will go in the draw to win a bottle of our specialty "Burnett Park Blend Premium Bundaberg Rum" valued at \$125.

SIRE: Whitaker Mr Coco

DAM: Purebred Red Brahman Cow (Herd cow 715)

NOTES: 24 mths. Now here's a bull with even red coloured skin. He's stylish, has a light pizzle, and well set, even testi placement. Again he's far from over-done and will immediately meet your paddock requirements.

SIRE: Whitaker Mr Coco

DAM: Purebred Red Brahman Cow (Herd cow Blue 5)

NOTES: 24 mths. When you buy a bull like this you can see he's not over the top in preparation. You would then expect him to acclimatise to the paddock more readily than those who've had the "life of Riley". Looking further into him we see he's correct, has a good hump set, is a nice cherry red, and has a strong, broad head.

SIRE: Whitaker Mr Coco

DAM: Purebred Red Brahman Cow (Herd cow Blue 86)

NOTES: 24 mths. This is one very stylish bull. Every time he pulls up he's basically saying look at me. A deeper pigmentation bull with long low set ears most often a sign of good temperament and exhibiting strong carcass attributes.

Whitaker Brahman Stud

Selling Rockhampton Brahman Week Sale

6 Greys - Tuesday 3rd October Lots 322-327

2 Reds - Tuesday 3rd October Lots 531-532

Whitaker Charbrays were awarded best pen of yearling heifers (over 50% Bos Indicus) at the annual Three Moon Premier Weaner Store Show and Sale at Monto Saleyards on the 21st June 2023.

****Once** in a lifetime (if you're lucky) a true champion arises in the world of Show Cattle. On our current Show Team, we believe we have such a champion in our home bred sire **WHITAKER MR. CRUISER**. To date he has won more accolades than we could ever imagine. From two Brahman Feature shows in both 2022 and 2023, to the 2023 Sydney Royal Easter Show and more recently the coveted Rockhampton Brahman Show from the strongest field of Brahmans seen in recent years.

****Further** to this he has won Supreme Champion Interbreeds at many shows in the open company of every other recognised beef breed.

****Thank** you WHITAKER MR. CRUISER; you are certainly helping to retain the prominence of our stud.

****Want** to buy a polled version of Mr. Cruiser? His half brother (same dam), by Clukan Axel, sells as the first bull - Lot 322 - on Day 2 Rockhampton Brahman Week Sale, 3rd October 2023. (see page 55)
