ROMA BULL SALE

1pm, Wednesday 13th September 2023

Roma Saleyards, QLD and via AuctionsPlus

100
Charolais
Bulls On Offer

Lot 3

WWW.GLENLEABEEF.COM.AU

WELCOME TO OUR ANNUAL ROMA BULL SALE

Welcome to our annual Roma sale, our biggest of the year after our successful regional sales at Winton in July and Clermont in August. We had complete clearance at both these sales and with bulls selling to repeat and new clients. Feedback from our clients is that the performance of Glenlea bulls calving, growth, yield and finish is outstanding.

This has been recognized recently by independent pastoral consultants, Bush Agribusiness, in their Top Studs 2023 publication. This publication was conceived by them to reduce the "noise" around bull selection and studs to select bulls from. **Selected from over 200 studs and 13 breeds, they are used in GLENLEA BEEF was one of the few Charolais studs to be selected as providing objectively measured seedstock that exhibit genetic gain and improved profitability for the herds.** We had no previous association with Bush Agribusiness.

The purchase of the Fairfield Charolais herd based at Roma from Lindsey and Belinda Hindle in 2021 added a larger dimension to our stud business and we have 300 bulls to sell in 2023 ... with half these already sold. Many bulls in this sale carry Fairfield Genetics.

With the cattle market correction seen in 2023, NOW is a **great opportunity to access higher value genetics to increase profitability in your herd at more reasonable prices than in the last two years.** Perfect time to cull older bulls and ones with lower performance and upgrade. The daughters of bulls purchased this year will still be producing in your herd in 12 to 15 years time so will have a big impact in adding \$\$\$ to your bottom line for years to come.

Our buyer incentive, to purchase 3 bulls or more from this sale and **Glenlea will donate \$1000 to any charity on behalf of the purchaser,** is our way to contribute to the great work many charities do in all our communities and reward our volume buyers and bidders with recognition to contribute to the work their favourite charity does in their community.

Throughout the sale we have around **30 bulls suitable for heifer joinings, low birthweight and high calving ease as objectively recorded on BreedPlan, these bulls**

are heifer safe with the extra growth and carcass that charolais genetics provide and the extra dollars over lower growth and lower carcass yielding Angus heifer bulls.

All bulls have BreedPlan data and raw scan data to assist with selection along with my comments on all the bulls and their individual background ... all provided to assist to focus your bull selection on the sires you need.

WE ARE TOTALLY FOCUSED IN PROVIDING GREAT AFTER SALES SERVICE AND BACK OUR BULLS WITH A NO FAULT GUARANTEE, IF ONE DOESNT WORK OUT FOR WHATEVER REASON CALL US AND WE SEND YOU ANOTHER BULL, SO THEY CAN GET BACK TO GETTING FEMALES IN CALF. See sale conditions for full details.

Breeding Charolais Seedstock is our primary business not a sideline!

The Glenlea team thanks you for your interest in our cattle and **looks forward to an ongoing relationship with you and your cow herd,** whether it's your first purchase today or more bulls after years of using Fairfield and Glenlea sires.

Regards,
Roderick Binny

Lindsay Hindle and Roderick Binny at Winton Bull Sale 2021. With the purchase of the Fairfield herd in late 2021, the Hindle's Fairfield Herd is now part of Glenlea Beef.

ROMA BULL SALE

1pm, Wednesday 13th September 2023

Sale to be held at Roma Saleyards, QLD and via AuctionsPlus

100 Charolais Bulls On Offer

Red Factor & White | Many DNA Tested Homozygous Polled (PP)

INSPECTIONS

Bulls will be available for inspection from 12noon on Tuesday 12th September
All Bulls will be penned individually at the saleyards from 10am on Wednesday 13th September.

VIDEOS

Videos of feature bulls are available to view at www.glenleabeef.com.au
They will also be on AuctionsPlus from Friday 9th September.

Conditions of Sale

INSPECTIONS: Bulls will be available for group inspection at Roma Saleyards from 12noon on Tuesday 12th September and penned individually or in pairs from 10am Sale Day Wednesday 13th September.

BULL HEALTH AND FERTILITY: All bulls have been vaccinated for 3 germ blood, 3 day, botulism and 7 in 1. Bulls have all been semen tested, for motility and morphology.

GUARANTEE: All bulls are guaranteed to be able to serve cows naturally at the time of sale and are guaranteed for 6 months from sale day. If a bull should prove infertile or unable to serve cows naturally, provided the inability not caused by injury or disease contracted after sale, the bull will be replaced with a bull of similar quality or credit given for another of our sales by discussion with purchaser. Less salvage value of the bull.

INSURANCE: We recommend you insure your new bulls. Elders can arrange this at fall of hammer sale day.

AGENT REBATE: A rebate of 2% to all licensed agents is available, introducing buyers 24 hours prior to sale and settling accounts within 7 days.

REFRESHMENTS: Saleyards canteen will be operating on sale day.

TRANSPORT: Delivery will be coordinated by Elders Roma.

PHONE BIDDING: Phone bidding is available by contacting the agents or vendor prior to sale to arrange for a dedicated agent to call you and assist you with your bidding.

ACCURACY OF CATALOGUE: Every effort is made to be as accurate as possible. However mistakes can happen in the construction of catalogue and printing, we will resolve any issues at best as possible but make no warranty.

CHAROLAIS BREEDPLAN: We no longer print detailed explanations of BREEDPLAN in our catalogues. All information explaining BREEDPLAN and how to use it to help with your selections is available at the click of your mouse. Of particular relevance is that Charolais EBV's can only be compared within the Charolais breed. For instance, the average 600 Day weight EBV in Charolais is +33kg for the average for Angus is +110kg. This is not a reflection of Angus having a higher 600-day growth, rather they have a much lower base breed growth and an average animal needs a 600 weight above the base of +110kg above the base of Angus where as Charolais are a much higher growth breed that has a higher base weight, therefore an average Charolais only needs to be +33kg above the base to be average for the Charolais breed. This is often confused when trying to compare breeds and performance. The key point is don't compare EBV's across breeds as they are only able to comparable within each breed.

Next Glenlea Sale ...

100 Females and 10 Bulls at Casino NSW - 3rd November 2023

Can't make the sale?
Register in just seven easy steps and log onto AuctionsPlus to bid from anywhere on your phone, tablet or desktop.

~ Glenlea Beef ~

Background, Bloodlines, Breeding Strategy & Customer Service

Australian Charolais breeders have embraced performance recording as other countries have reduced their efforts, I have seen this first hand in north America. Our data now is more accurate and detailed, making looking overseas less likely to add genetics that take your herd forward in genetic development than using **Australian evolved genetics that are the best in the world for our environments and markets** with large amounts of individual data to help us as seedstock producers, identify positive influences.

Glenlea beef is now a large seedstock enterprise, including JV herds total over 500 Charolais females. We have been using **Australian bred sires** to continue the evolution of the herd over the last 10 to 15 years with limited use of overseas sires. Where you will see overseas as well Australian sires in the Glenlea herd is in our E.T. program using **exclusive proven sires** in very specific planned matings to produce elite progeny from our highest genetic merit females, our donors!

Our genetic base of the Glenlea herd is now as diverse as the breed in Australia, with a blend of many bloodlines and different phenotypes to produce an Australian type Charolais. We have a degree of type variation, which is necessary with our range of markets and geographic footprint, from higher growth and yield types for northern markets over bos indicus cows to more moderate, early maturing types that suit more southern markets, but all assessed through the same process for all economic traits. This will be evident through the catalogue and comments, and EBV's on individual lots will highlight this.

Our breeding strategy is to produce powerful performance cattle in a medium to moderate frame score with a complete carcass. By that we mean above average yield, EMA, fat cover and IMF%. Measuring birthweights to be able to assist our bull clients to make the best selections for their operation and maintaining calving ease through BW and early gestation length.

Maternal strength focus on fertility, milking ability with great udders and moderate sized teats for longevity. While we are primary a terminal breed, in northern markets especially, Charolais x heifers are retained in there 1000's, so as seedstock producers we must always have our customers and in turn their customers in the front of mind in our breeding decisions, as those decisions ripple down the supply chain and leave big impacts, both positive and negative.

Polled genetics have progress in our breed to match horned bloodlines for every economic trait. Our herd still has a number of horned females and these are joined to homozygous polled sires. 98% of our calves born in the last 5 years are polled, many homozygous, and all testing will be available in catalogue or supplementary sheet.

BREEDPLAN is a genetic evaluation tool now over 30 years old and proven across many breeds and countries. We no longer print a detailed general explanation in our catalogues for bull sales or female sales as that information is available at the touch of your phone screen or click of your mouse! We are happy to explain any of the finer points of EBV's as they relate to the Charolais breed and specifically to our cattle, just call and ask! In the comments of each lot, you will see our summary of the EBV's printed for that lot.

Customer Service is at the heart of what we do, we spend much of our time travelling to clients both commercial and stud to help with a full range of services. We provide many services to all our clients from the most basic to full stud breeding and marketing support. Your success is our success. We are here to assist and work with you and your agents to help you achieve the highest possible price for your Glenlea sired stock.

DAM: GLENLEA JANET U6E (GLE U6E) (R/F) (P) (TW)

Photo at 7 years running with cows.

COMMENTS:

The original GLENLEA RED sire.

Homozygous Red and Polled, his progeny are all apricot colour and polled out of white charolais cows.

His genetic value goes far beyond hide colour, a trait leader for all growth traits, with very positive fat cover so progeny fatten quickly.

Lot 1

GLENLEA / FAIRFIELD LORD S1138

TATTOO: LVH S1138

DOB: 14/07/2021

COLOUR: White

COMMENTS: HERD BULL

We have selected a long bodied, excellent carcass bull with good fat cover to kick off the sale. Strong double polled head and slick hair type, his progeny would suit all markets, we are sure he will attract a lot of interest on sale day. Sire is top 1% of breed for all growth traits, moderate BW with excellent carcass and medium frame, Lord S1138 exhibits all these traits. Dam is an older matron of the herd, great production record, easy doing, big volumed medium framed cow with great carcass data. **Double polled.**

EBV's Top 5 to 10% for all growth traits, EMA, Fat cover and IMF%, with moderate BW. Charolais record 16 traits in total and this bull has 12 out of 16 above breed average.

PP POLLED

COMMENTS: Big strong bull, long bodied excellent growth and frame, easy finishing bull, very fine hair type, ideal for northern herds. would sire outstanding bullocks that would finish on grass or quickly on grain Has merit in seedstock Charolais / Charbray composite operation especially over horned cows as DNA Tested PP Polled. Sire is one of our most prolific Senior sires, see reference sires. Dam is a great producer with extra growth and milk, from a very prominent cow family.

EBV's all growth traits in top 15%, all carcass traits above breed average.

Lot 3

GLENLEA SUPERBOWL S41 (P) (R/F)

TATTOO: GLE S41E

DOB: 15/06/2021

COLOUR: Red factor

COMMENTS: Superbowl has been a lead bull in our 2021 drop bulls since birth. Growth, length, carcass, easy finishing and polled - a very versatile sire. Shown several times for several championships including Interbreed Bull at Lismore National Show in October 2022 and highest placing Charolais bull in ACM's online Sire Shootout in June.

Full brother to our top priced bull in 2020, Pheonix, we have 10 of his sons catalogued, very proven genetics at the top of the breed for growth. Rarely do you have the opportunity in one sale to purchase a sire with 2 year old sons by a full brother in the same sale.

Sire has produced some of our highest selling progeny including the top price female in Australia in 2021, Glenlea Isabellea 14th (PP) selling for \$26,500. Dam has produced stud sires, and donor dam daughters and has produced numerous progeny on our E.T. program, from one of the best know cow families in Australian Charolais. We have some special progeny coming from her that will be offered in our sales in 2024.

EBV's Top 1% of breed for all growth Traits, total of 10 traits in top 15% of breed.

Lot 4**TORRIE LODGE / GLENLEA RASCAL (PP)**

TATTOO: BAP R3

DOB: 22/09/2020

COLOUR: White

PP POLLED

COMMENTS: Big strong thick bodied sire, growth, carcass, bone and quite nature all key charolais traits. PP POLLED. A real candidate for a bull breeding program and would sire tremendous bullocks and heavy feeders with performance to get them to target weight quicker and plenty of finish to get them to the top of the grid. Sire has produced great carcass progeny with performance and this bull is one of his best sons. Dam is a big volumed cow, with some great of the breed in her pedigree, from one of the best cow families at Airlie Charolais, bloodlines of which feature at many major charolais herds in QLD.

EBV's Top 10% to 20% for all growth traits, top 25% EMA with all carcass traits above breed average.

Lot 5**TORRIE LODGE / GLENLEA ROMULUS (P)**

TATTOO: BAP R5

DOB: 20/09/2020

COLOUR: White

PP POLLED

COMMENTS: Just like his brother in Lot 4 a big strong sire. Long bodied with great carcass and slick hair type. PP Polled. Ideal for bullocks and heavy feeders.

Same comments apply as sire for previous lot, this bulls dam is a lovely big feminine cow, very sound with extra fat cover and easy doing, her dam and grand dam were champions in the showing and again traces back to the Airlie Charolais herd.

EBV's Top 10% Rump Fat with all positive carcass traits and above average growth.

Lot 6

GLENLEA GEDDES S4222 (AI) (P)

TATTOO: GLE S4222B

DOB: 05/09/2021

COLOUR: White

COMMENTS: Big strong young polled sire, length, growth carcass, fine hair type strong polled head, ideal for bullocks and heavy feeders, but you benefit from the extra growth these powerful sires offer if selling progeny as weaners...weight = better returns.

Sire is a performance and carcass sire from NZ with over 200 registered progeny and trait leader for 400 and 600 day weight. Dam is a high performance cow with a great production and excellent milking ability with very sound udder, she has another lead bull coming along for 2024.

PP POLLED

COMMENTS: Performance, carcass with good fat cover and bomb proof temperament, extra maternal traits, a great all-round sire. PP Polled. Growing his progeny to heavy feeders and bullocks would give you the greatest return, ideal for grass finishing. His daughter's will stay in the herd or could be marketed as premium herd replacement females. Suit Heifers.

Sire is one of leading senior sires, having progeny with carcass and easy finishing along with outstanding maternal traits. Dam has produced outstanding progeny with a daughter being awarded Junior Champion Female at BEEF 2021.

EBV's Top 20% growth and IMF% , Top 15% Fat cover, above average EMA with Low BW.

TATTOO: GLE S325E

DOB: 08/08/2021

COLOUR: White

COMMENTS: I really like this Strong big polled sire. Depth, length and volume, good yield, great temperament, strong polled head and excellent growth. Sire is top 1% of the breed for growth, with above average carcass traits and strong maternal traits. Dam had her 2020 bull sell for \$16,000 last year here at Roma and is a cow that gives a great calf every year, her 2022 drop heifer, full sister to this bull is in the show team for BEEF 2024.

EBV's Top 1% of the breed for all growth traits, above average EMA, IMF% and milk.

GLENLEA JR S428 (P) (R/F)

TATTOO: GLE S428E

DOB: 19/09/2021

COLOUR: Red factor

COMMENTS: This strong red factor polled sire has a tremendous carcass yield. A great sire's head, square stance, loose hided. Would suit a bull breeding enterprise and/or bullocks and heavy feeders, ideal for grain finishing. Sire is a reference sire and trait leader for growth. Dam is a very powerful carcass and growth female, medium framed with massive volume, out of one of our most prolific cow families with over 40 years of production behind them, the Nolana's.

EBV's Top 15% all growth traits, EMA with positive Rump Fat and IMF%.

Semen retained for in herd use.

PP POLLED

COMMENTS: Deep bodied, good doing, deep red, PP Polled sire. We love his loose hide and easy-going nature. Sire was a high seller for us in 2020 and is an outcross PP Polled, Red Factor sire that we produced via E.T., his dam is one of our highest earning cows, producing nearly \$100,000 worth of progeny and embryos sales. The Dam of S425 is an easy doing medium frame cow, with his grand dam being a Glenlea Charol cow, another of our best cow families with over 40 years of production.

EBV's Top 20% for all growth traits, moderate BW

PP POLLED

COMMENTS: This young PP polled bull again only 22 months is a real curve bender for performance, Low BW with lots of growth. Extra length, good bone, slick coat and such a smooth moving bull, very sound and will cover the big country. Sire is a limited use sire that himself bends the growth curve from birth to maturity. Dam is a first calver by Hallmark, and her Dam was the top priced cow at Palgrove's 2017 female sale selling for \$18,000.

EBV's Top 10% for 400-day growth and IMF%, Top 20% for 200, 600 days and Milk and with top 25% of breed for Low BW with positive Rump fat.

COLOUR: Red factor

PP POLLED

COMMENTS: Growth, length, carcass, finish, very fine hair type, bomb proof temperament. Ideal to produce bullocks. This Pheonix son is one of his best to date. Dam is a matron of the herd that has always produced a great calf and is from another of our most prominent cow families, the "Carol's". T703 was her last calf and her udder was as sound as any young cow.

EBV's Top 1% growth for 400 and 600 day and mature weight, top 10% 200 days. Top 20% EMA. We feel his fat cover is better than his EBV's would suggest.

PP POLLED

COMMENTS: Very eye appealing bull, great carcass with good fat cover, fine hair type, always catches the eye in paddock, stands up very square and very quiet temperament. Progeny will suit all markets. Sire is a moderate BW, deep bodied bull with excellent carcass, Dam is a big strong soft cow with a great udder and good carcass. We think a lot of this young sire and have retained semen for in herd use, his is an outcross to nearly all our bloodlines.

EBV's Top 5% of breed for IMF% , Top 15% of breed for 400- and 600-day weight, top 10% for EMA top 15% for Fat cover.

TATTOO: GLE S52E

DOB: 26/09/2021

COLOUR: White

PP POLLED

COMMENTS: These next four lots are excellent young polled bulls, coastal born and raised, they will grow out very well.

S52 is a medium maturity bull, extra carcass yield, fine hair type, good bone, heifer's first calf. Sire is a reference sire, see front of catalogue. Dam is powerful female, growth, bone, carcass, excellent udder and very docile.

EBV's Top 10% IMF, Top 20% 600-day growth, above breed average EMA and Rump Fat.

Lot 93**ASHDAN GLENLEA KENWORTH S7 (P)**

TATTOO: ADB S7E

DOB: 20/10/2021

COLOUR: White

PP POLLED

COMMENTS: Such a soggy, easy doing young bull, deep bodied, loose hided, Polled bull with very gentle nature. Ideal for grass finishing production systems. Sire is reference sire. Dam is one of our most valued matrons, big volumed, easy doing, with low BW, excellent growth and extra milking ability. Highest EBV for IMF in the sale! Would made a perfect bull over Euro / Santa / Droughtmaster influence heifers.

EBV's Top 1% of breed for IMF%, Top 25% 400- and 600-day weight, Rump Fat. Low BW

Lot 94**ASHDAN GLENLEA LOUIS S4 (P)**

TATTOO: ADB S4E

DOB: 05/09/2021

COLOUR: White

PP POLLED

COMMENTS: Long bodied, easy finishing, very docile, fine hair type, Polled bull with tremendous EMA, the highest EBV in the sale for EMA, with very positive Rump fat. Ideal for grass/crop finished systems. The only son of Louis in this sale, we have many more to come in future. Dam is a long, feminine cow, from one of our leading cow families, grand dam is a Donor.

EBV's Top 1% EMA, Top 15% Milk, Top 25% Rump Fat and above average for all growth traits.

GLENLEA QUIN S48 (P)

TATTOO: GLE S48E

DOB: 21/09/2021

COLOUR: White

PP POLLED

COMMENTS: Medium maturity, deep bodied, very easy doing and a carcass that is just about perfect to target MSA grass/crop fed premium grids. The 3 previous lots and this bull are MSA specialists. Sire is a new release sire, extra growth and very high IMF%, first son offered. Dam is a donor cow, carcass, length, perfect udder, produces great calves to any sire.

EBV's Top 5% IMF, Top 10% EMA, all growth traits and Rump fat well above average.

Lot 99**TORRIE LODGE NOVOTEL S28 (AI)**

TATTOO: BAP S28E
DOB: 26/09/2021
COLOUR: White

COMMENTS: Square bull with extra carcass, loose hided, good bone - quality bulls at end of the sale. Sired by proven French bull Novotel, out of a Ledger young cow, combination of French and American genetics. Had set back during his preparation, performing really well now. Suit weaner to heavy feeder markets.

EBV's top 10% EMA. Low BW

**July 2023 Australasian Charolais BREEDPLAN Analysis**

Lot 100**GLENLEA PLUTO S809 (P/S)**

TATTOO: GLES809E
DOB: 11/12/2021
COLOUR: White

COMMENTS: Last bull in the sale and could have been 50 lots earlier. Carcass, weight for age and good bone, this bull only 20 months old and we feel has more growth than his EBV's mite suggest, this is due to very little data on sire as his he only sired a handful of progeny. Dam is big strong cow, from our "Janet" cow family. Poll/scur.

EBV's Low BW breed average growth.
