MINLACOWIE • WINGFIELD**

How to Register and Bid on AuctionsPlus

- 1 Go to www.auctionsplus.com.au to register at least 48 hours before the sale.
- 2 Select **"Sign Up"** in the top right hand corner.
- 3 Fill out your name, mobile number, email address and create a password.
- 4 Go to your emails and confirm the account.
- 5 Return to AuctionsPlus and log in.
- 6 Select **"Dashboard"** and then select **"Request Approval to Buy"**.
- 7 Fill in buyer details and once completed go back to Dashboard.
- 8 Complete buyer induction module (approx. 30 minutes).
- 9 AuctionsPlus will email you to let you know that your account has been approved.
- 10 Log in on sale day and connect to auction.
- 11 Bid using the two-step process – unlock the bid button and bid at that price.
- 12 If you are successful, the selling agent will contact you post sale to organise delivery and payment.

For more information please contact us on:

Phone: (02) 9262 4222

Email: info@auctionsplus.com.au

Online only via AuctionsPlus

Sale beginning 8am Monday, 21st September 2020

Timer to take control Tuesday, 22nd September at 1pm

Inspections

Bull inspections are welcome at any time prior to the sale by arrangement with the vendors.

Insurance

Ownership passes at the conclusion of the sale and it is recommended all cattle be insured. Successful purchasers who require the vendors to hold the bulls on their property MUST have the bulls insured. All care will be taken, but absolutely no responsibility will be accepted for any injury or loss occasioned during, as a consequence of, or in relation to any holding.

Delivery

Bulls will be held at the vendors' property. All deliveries to be arranged with Elders by contacting Randall Spann and Brian Wedemeyer.

Sale conducted by AuctionsPlus

You must register online at www.auctionsplus.com.au at least 24 hours prior to the sale. For first time users of AuctionsPlus, we recommend you register as soon as possible and become familiar with the site. For more information contact AuctionsPlus 02 9262 4222.

Q VENDOR PROFILES

Birch Droughtmaster Stud

Breeding Droughtmasters since 1984, the Birch stud was registered in 1999 and is operated by Douglas and Juanita Birch. Located at Eidsvold and Cracow in Central Queensland, the stud runs 150 registered breeders in 3 single sire herds, in conjunction with 500 commercial females, selling 50-60 registered and herd bulls each year.

The Birch family concentrate on breeding cattle with broad appeal, from quality stud breeding and show animals, to practical, commercially focused cattle, targeting the EU and heavy feeder market. While occasionally using a quality home bred sire, the stud's principals believe it is important to maintain a broad genetic base in the herd, thus continue to source high quality sires from other progressive studs.

Females run on ticky forest country and as productive females are the basis for any successful cattle enterprise they are subjected to a rigorous culling process, with emphasis placed on constitution, femininity, good udders and quiet temperament.

Young bulls are given grain for a few weeks at weaning, then run with steers on scrub country or crop until sale preparation of 100 days. This ensures bulls are not overdone and are able to go straight to work. The principals of Birch Droughtmasters believe that their role as stud stock producers is to ensure bulls are properly prepared for a long working life in the often tough working environment that prevails on breeder properties in tropical and sub tropical Australia.

The Birch Droughtmaster herd is J-BAS 7. All bulls have up to date vaccinations including 5 in 1, 3 Day and 3 Germ Blood.

Kenlogan Droughtmaster Stud

Kenlogan Droughtmaster stud number 715 is a family owned and operated cattle and cropping property situated in the fertile black soil country of the Mt. McLaren – Kilcummin district, north of Clermont, Central Qld.

The stud has been successful over the years through bull sales, shows and carcass competitions.

The main selling centres the bulls are auctioned through are:

- Highlands Droughtmaster Bull Sale, Clermont.
- Central Reds Droughtmaster Bull Sale, Emerald.
- CQ Invitational Droughtmaster Bull Sale, Online September, 2020.

Every year the Kenlogan bulls are on site at Ag-Grow Field Days held in Emerald for inspection.

Our main aim with the stud is we focus heavily on producing good, clean quality bulls with bone structure, clean underlines, muscle, scale and the ability to walk out and forage.

With our female herd, we strive for bone structure, udder development, femininity and the ease of calving.

FERTILE – VERSATILE – DOCILE

Strathfield Droughtmaster Stud

Strathfield Droughtmaster stud is one of the Foundation Members of the Droughtmaster Stud Breeders Society. The nucleus of the herd was established by Noel and Audrey Perry in 1956 with the first animals officially registered in 1960. The stud is now operated by Noel and Audrey's youngest son Shane and wife Wendy at "Fletcher's Awl", near Clermont Central Qld.

Strathfield cattle are considered hardy due to natural selection brought about by many droughts over the years that are a normal part of breeding in Central Queensland. The stud recognises the need to keep the softness in their Droughtmaster cattle, yet they still need to be tough enough to survive in the northern parts of Australia.

Strathfield stud places an emphasis on breeding quality rather than quantity, with bulls chosen for a broad range of desirable traits within the breed, including temperament, confirmation, fertility, weight gain and survivability but most importantly, structural soundness.

We are proud of the cattle we produce and stand behind them with complete confidence.

Wirrigai Droughtmaster Stud

Wirrigai Droughtmaster stud was established in 2005 and is 50klms west of Toowoomba, with family country in Western Qld. My aim is to produce structurally correct cattle with length, muscling, great temperaments, very fertile and ability to walk out well to cover big areas.

Wirrigai has had great success in both the sale ring and the show ring - twice being top price at Roma sale, class winner at Beef 2012, Supreme Exhibit on three occasions at Gatton Futurity, topping off with Junior Champion at Brisbane Ekka 2014 with Wirrigai Century.

Parawanga Droughtmaster Stud

Parawanga Droughtmaster stud number 736 was established in 1991 by Rob and Karen Scanlan, who have been selling quality coastal bred bulls ever since, from their locations in Central Queensland at Flaggy Rock and Miriam Vale.

The stud has a focus on higher content cattle due to the high tick loads and low nutrient pastures in the low rangelands close to the Coral Sea. Herds are run with minimal supervision, and the breeders and calves live or die based on environmental adaptation, walking ability, natural fertility, calving ease and mothering and milk production.

Only dry lick is given to the herds, currently numbering over 250 stud breeders along with 6 stud bulls. The 6 bulls that we present for the very first CQ Invitational Bull Sale are by Billabong Alexander and Billabong Vaughn crossed over Parawanga breeders of long pedigree, and these bulls represent the very peak of our breeding towards the Droughtmaster standard of excellence.

Tara View Droughtmasters

Tara View Droughtmasters established in 1999, Sarina Central Queensland.

We have always bred a consistent line of cattle with a short smooth coat, fertility, good frame and a bullet proof temperament, that will suit all types of country.

We are J-BAS 7 accredited. Inspections welcome phone Jeff 0427 564 774 or Chris 07 3856 4753.

Minlacowie & Wingfield Droughtmasters

Minlacowie and Wingfield Droughtmaster studs were both established in 1967 as stud numbers 49 and 47, respectively. The Wingfield stud was formed by the late great stud master Frank Hodgson and we were privileged to be able to purchase the complete herd back in 2001.

Both studs over the years have been extremely successful in both the sale and show rings. The two studs have sold bulls to \$100,000 and the studs combined have topped Droughtmaster bull sales on many occasions including the top priced bull at the Droughtmaster sale in 2018 with \$55,000 Minlacowie Vinnie D2, this would have to be one of our most rewarding achievements to date. Both studs have been highly successful in the show ring winning numerous Grand and Supreme Exhibits including many Brisbane Royal Grand Championships.

The studs are now located on several properties in the Callide Valley Central Queensland. We strive to maintain the Bos Indicus content in our herd using Brahman bulls and bringing their progeny up through the D rating system. We keep the short sleek tropical coat, moderate length ears, looseness, length and scale along with very feminine females in our herd.

We also maintain enough leg to enable our bulls to go out there to some of the harsher environments and large areas and to cover the distances and cows with ease.
